

REMARKS

In the Official Action mailed on **July 27, 2004**, the examiner reviewed claims 1-45. Claims 1-45 were rejected under 35 U.S.C. §103(a) as being unpatentable over Angiulo et al. (USPN 6,275,829, hereinafter “Angiulo”) in view of Marimont et al. (USPN 5,809,179, hereinafter “Marimont”).

Rejections under 35 U.S.C. §103(a)

Independent claims 1, 8, 15, 22, 30, and 38 were rejected as being unpatentable over Angiulo in view of Marimont. Applicant respectfully points out that Angiulo teaches replacing a graphical image in a web page with a **thumbnail image** (see Angiulo, col. 6, lines 1-20).

In contrast, the present invention replaces the graphical image with a **full-sized line drawing** of the graphical image (see FIG. 1, index 106 and page 10, lines 12-16 of the instant application). This is beneficial because it provides a technique to present the web page in the desired format and to change from the line drawing to the graphical image without displacing textual information or other images in the web page—a known problem with thumbnails in the prior art (see page 2, lines 11-17 of the instant application). There is nothing within Angiulo or Marimont, either separately or in concert, which suggests replacing the graphical image with a full-sized line drawing of the graphical image.

Accordingly, Applicant has amended independent claims 1, 8, 15, 22, 30, and 38 to clarify that the present invention replaces the graphical image with a full-sized line drawing of the graphical image. These amendments find support at FIG. 1, index 106, and on page 10, lines 12-16 of the instant application.

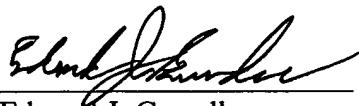

Hence, Applicant respectfully submits that independent claims 1, 8, 15, 22, 30, and 38 as presently amended are in condition for allowance. Applicant also submits that claims 2-7, which depend upon claim 1, claims 9-14, which

depend upon claim 8, claims 16-21, which depend upon claim 15, claims 23-29, which depend upon claim 22, claims 31-37, which depend upon claim 30, and claims 39-45, which depend upon claim 38, are for the same reasons in condition for allowance and for reasons of the unique combinations recited in such claims.

CONCLUSION

It is submitted that the present application is presently in form for allowance. Such action is respectfully requested.

Respectfully submitted,
